

SCENIC CAVES NATURE ADVENTURES

THUNDER BIRD

Ontario's Longest TWIN-ZIP LINE

One Half-Mile of Excitement!

sceniccaves.com

The adrenaline really starts to pump as you leave the 50 foot tower of the Thunderbird nest. Next, you and a friend are soaring side-by-side over the Escarpment, surrounded by one of the best views in Southern Georgian Bay. On a clear day you'll see Collingwood, Blue Mountains, Wasaga Beach...even Christian Island and beyond!

The Twin Zip ride is a kaleidoscope of passing scenery, beginning above the treetops and flying where only birds go.

The excitement is in your hands

Two things distinguish the Thunderbird TwinZip Line from other zipline products:

- *At a half-mile, it's one of the longest ride spans in Ontario.*
- *The dynamically controllable trolley allows riders to control their own zip line ride speed.*

Until the Thunderbird, there has never been technology in place that allows participants to control their own speed.
